What equipment can we use to take photos?

Laptop   Tablet   Camera   Phone

How do you take a good photograph?

1. Hold the device firmly with both hands.

2. Point the camera lens at the subject.

3. Look into the viewing window or screen.

4. Move the device until you see everything clearly.

5. Press the capture button.

We can change the look of photos by adding effects. Here we have added different colour effects to **edit** the photo.
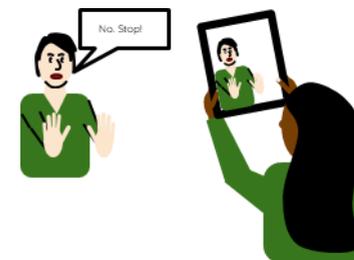

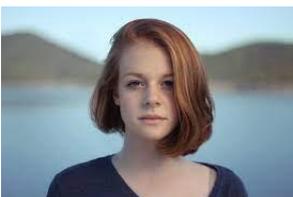

Black and white

More blue

More red

Upright = portrait

Sideways = landscape

IMPORTANT

Ask for permission before taking someone's photo.

No. Stop!

Things to think about when taking a good photograph

Positioning: Is it obvious what the main subject of the photograph is?

Framing: Have you included everything you wanted to?

Subject: Are you close enough that you can see the detail?
